SUMMARY

Full Stack Developer skilled in building responsive, scalable web applications with expertise in React, Next.js, and Tailwind. Proven ability to deliver visually appealing, user-centric interfaces

Technical Skills

Languages - C++, JavaScript

Frontend - Html, CSS, JavaScript, React.js, Redux, Tailwind, Bootstrap

Backend - Node.js, Express.js, Postman

Database - MongoDB

Framework - Next.js

Main Projects

1. Employers: [Code Link](#), [Live Demo](#) - JavaScript, CSS, React.Js, Tailwind CSS.

- Developed a React-based Employee Management System with admin and employee user roles
- Implemented project assignment and tracking features using logic of JavaScript
- Enabled seamless project tracking with role-based access control, improving administrative efficiency by 40%.
- Designed responsive web application enabling administrators to assign and track projects

2. Notes Portel: [Code Link](#), [Live Demo](#) - React.Js, Tailwind CSS, Email.js.

- Developed a React-based educational platform using Vite.
- State management using React Hooks and Context API, reducing component complexity
- Designed dynamic PDF filtering by subject, streamlining resource access for 500+ users.
- Implement responsive design with Tailwind CSS
- Integrated form handling with validation, feedback system, and optimized build process

3. Micro Donation (web3 Money Transfer Application) : [Code Link](#) - JavaScript, Move, Aptos.

- Developed during the Aptos Bootcamp, this application leverages blockchain to facilitate secure micro-transactions.
- Generated \$30 in revenue during the Bootcamp through practical implementation.
- Technologies Used: Aptos SDK, JavaScript, Move, Smart Contracts.
- Designed a user-friendly interface for seamless donations and implemented backend functionality for transaction history tracking.

Practice Projects

1. Saas Landing Page: [Code Link](#), [Live Demo](#) - Next.Js, JavaScript, Framer-Motion, Tailwind

2. Gaming Animation Page: [Code Link](#) - React.js, GSAP, Tailwind

3. Finance Tracking Landing Page: [Code Link](#) - Next.js, Tailwind, User Auth

Certifications

1. Build on Aptos Bootcamp – CSMU Mumbai, [View Certificate](#), [October 2024]

- Built a Web3 full-stack project enabling secure money transfers, earning \$30 as part of the bootcamp.
- Gained expertise in blockchain technology, decentralized applications (DApps), and Aptos framework.
